

# Agilent Cell Analysis Seminar and Workshop at Aarhus University

Seminar: May 20<sup>th</sup> | 10.00 – 16.15  
Workshop: May 21<sup>st</sup> |

## EVENT DETAILS

### Host

Peter Bross, assoc. prof. Aarhus University, Research Unit for Molecular Medicine

### Location:

Science Center Skejby,  
Brendstrupsgaardsvej 21,  
8200 Aarhus N,  
Building D+E, Auditorium

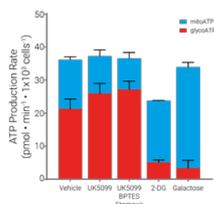

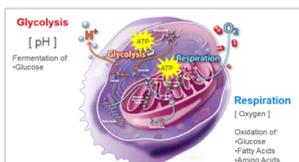

### Date/Time:

Monday, May 20, Seminar 10:00 – 16:15  
Tuesday May 21, Practical workshop

### Please Register here:

<https://tinyurl.com/y2bz3u7a>

For the Practical workshop please contact [nick.howe@agilent.com](mailto:nick.howe@agilent.com) to secure a seat.

## Join us for an Agilent Cell Analysis Workshop

**Learn about Mitochondrial dysfunction in diseases: Bioenergetic analysis of peripheral blood mononuclear cells (PBMCs), other primary patient cells, and cellular disease models**

### You will learn:

- How to detect discrete changes in cell bioenergetics with the Agilent Seahorse technology
- How to best normalize your Seahorse XF data
- How to quantify ATP production via glycolysis and OXPHOS.

## Agenda – Monday May 20

10:00 – 10:30	Arrival and Introduction of participants
10:30 – 11:15	Nick Howe, Agilent Technologies: <b>Introduction to Seahorse XF Technology, New Developments and Applications</b>
11:15 – 11:30	Coffee Break
11:30 – 12:00	Natasha Morozova Goul Møller & Peter Bross, <i>Research Unit for Molecular Medicine, Aarhus University and University Hospital</i> : <b>Bioenergetic profiles of blood cells (PBMCs) from heart failure patients treated with resistance training</b>
12:00 – 12:30	Tinna Stevnsner, <i>Department of Molecular Biology and Genetics, Aarhus University</i> : <b>Mitochondrial metabolism and maintenance of cognitive capacity at old age</b>
12:30 – 13:15	Lunch Break
13:15 – 13:45	Paula Fernandez Guerra & Rikke Olsen, <i>Research Unit for Molecular Medicine, Aarhus University and University Hospital</i> : <b>Immunocellular bioenergetics in Danish females with chronic fatigue syndrome</b>
13:45 – 14:15	Johan Palmfeldt, <i>Research Unit for Molecular Medicine, Aarhus University and University Hospital</i> : <b>Phenotyping of cells by combining metabolic activity measurements and proteomics</b>
14:15 – 14:30	Matej Števuľiak, <i>Bioinformatics Research Centre (BiRC), Aarhus University</i> : <b>Automatization of Seahorse data analysis using linear regression</b>
14:30 – 14:45	Coffee Break
14:45 – 15:15	Jean Farup, <i>Research laboratory for Biochemical Pathology Department of Clinical Medicine, Aarhus University Hospital</i> : <b>Fibro-adipogenic progenitors in human skeletal muscle - the role of metabolism in muscle degeneration</b>
15:15 – 15:45	Cağla Cömert, <i>Research Unit for Molecular Medicine, Aarhus University and University Hospital</i> : <b>HEK cells as a model for mitochondrial dysfunction</b>
15:45 – 16:00	General Discussion; interests from the audience
16:00 – 16:15	Information on the Hands-on workshop
