# How frequently, did you during the last six months use the FACS Core Facility?

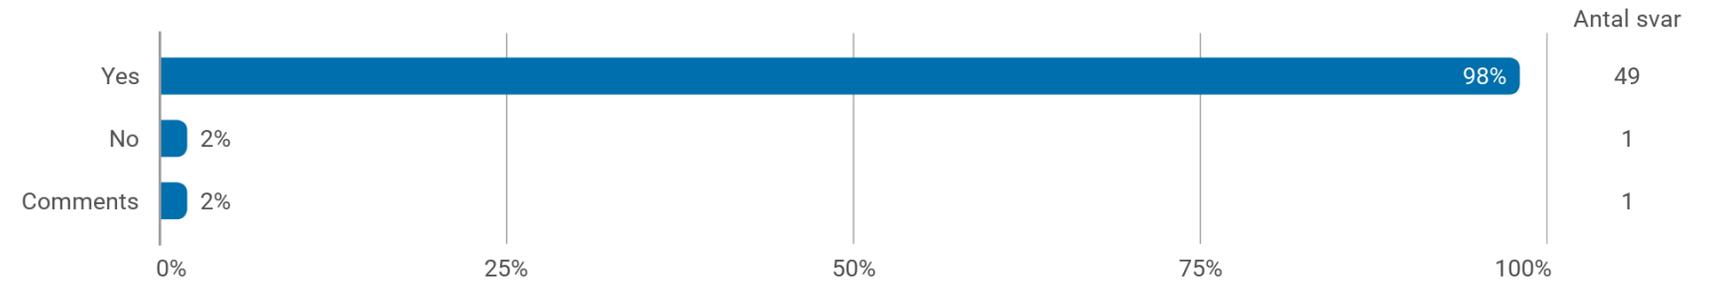

# For how long have you used the FACS Core Facility?

Do you use the FACS Core Facility for (select as many as apply to you):

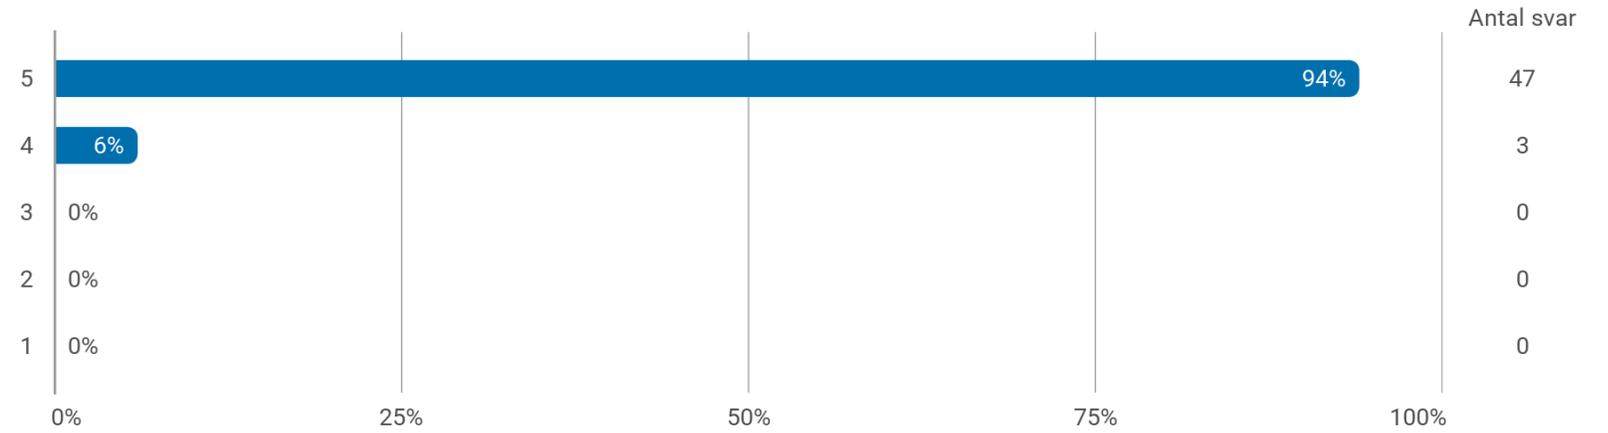

In your opinion, are the instruments maintained and managed properly?

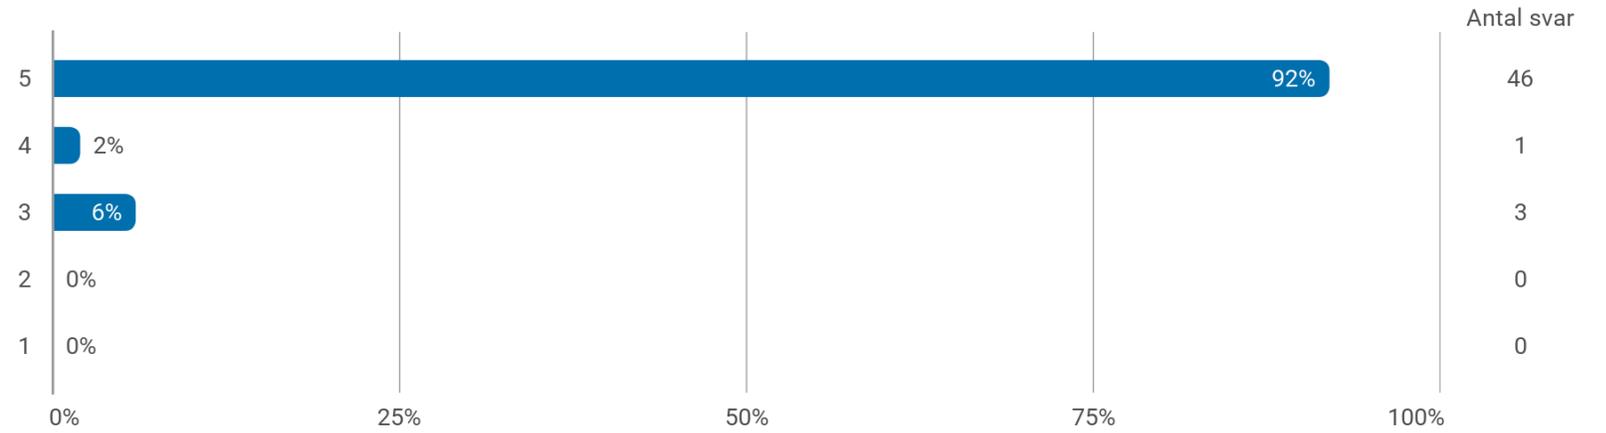

**In your opinion, are the instruments maintained and managed properly? - Comments**

only au- it problems

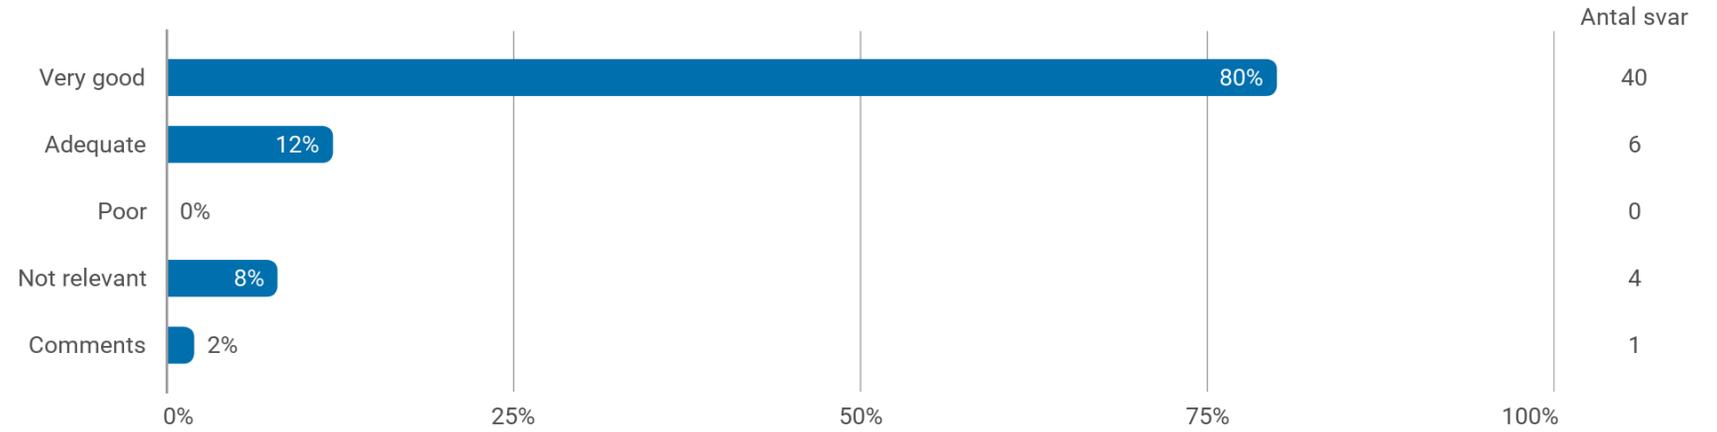

How would you rank staff technical flow cytometry knowledge? (1-5, 5 best)

## How would you rank staff response time? (1-5, 5 best)

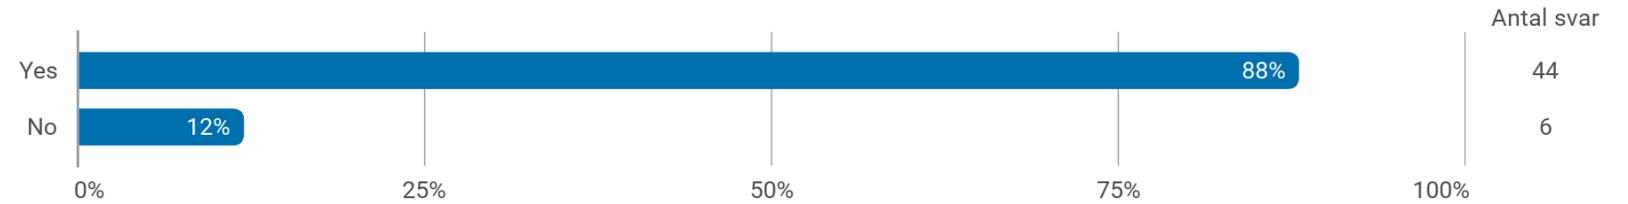

# How did you experience your training for a license to run independently in the FACS Core Facility?

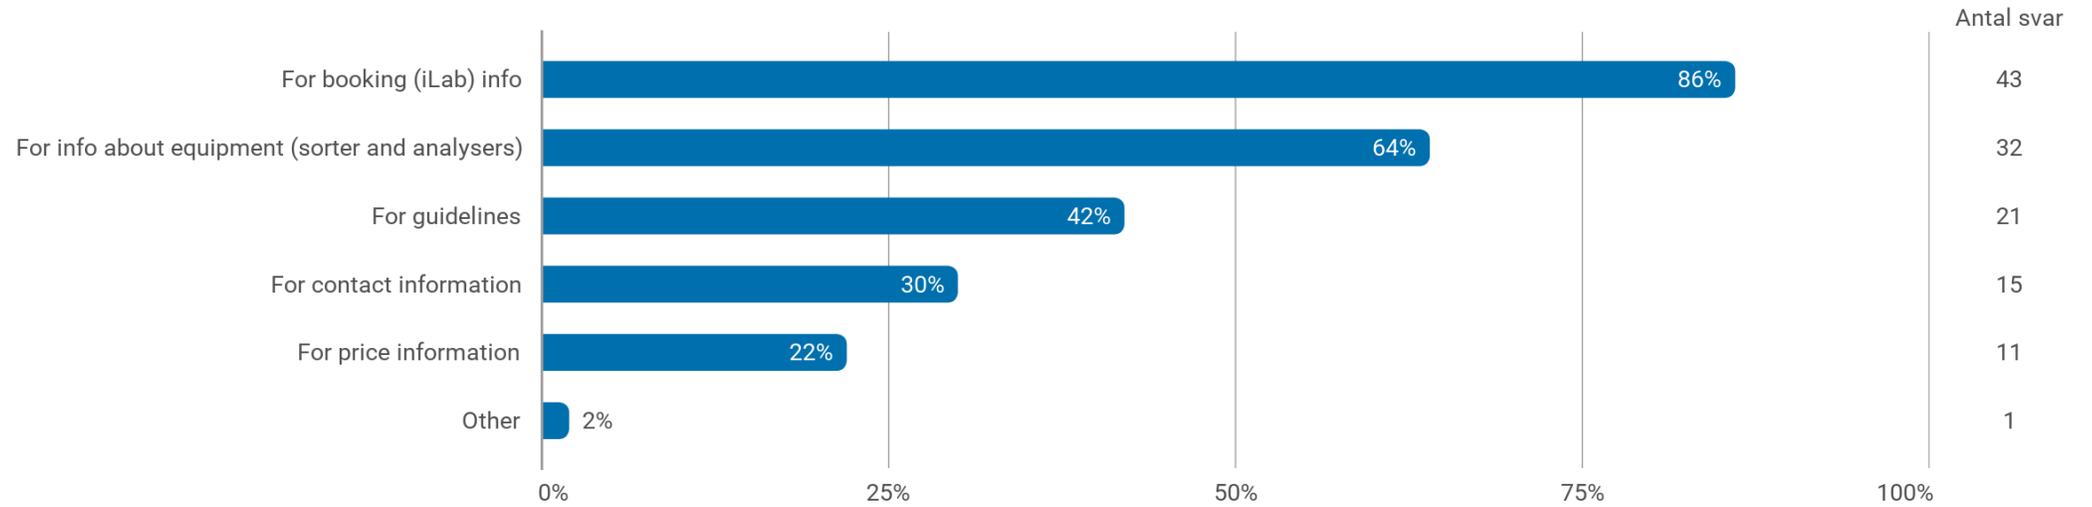

**How did you experience your training for a license to run independently in the FACS Core Facility? - Comments**

I had training on the new CytoFlex. It is still a very new instrument, which of course meant that the knowledge on the machine was limited - and we are still learning how to use it!

Do you know that our homepage contains many useful guidelines, links, info relevant for publication, etc. ?

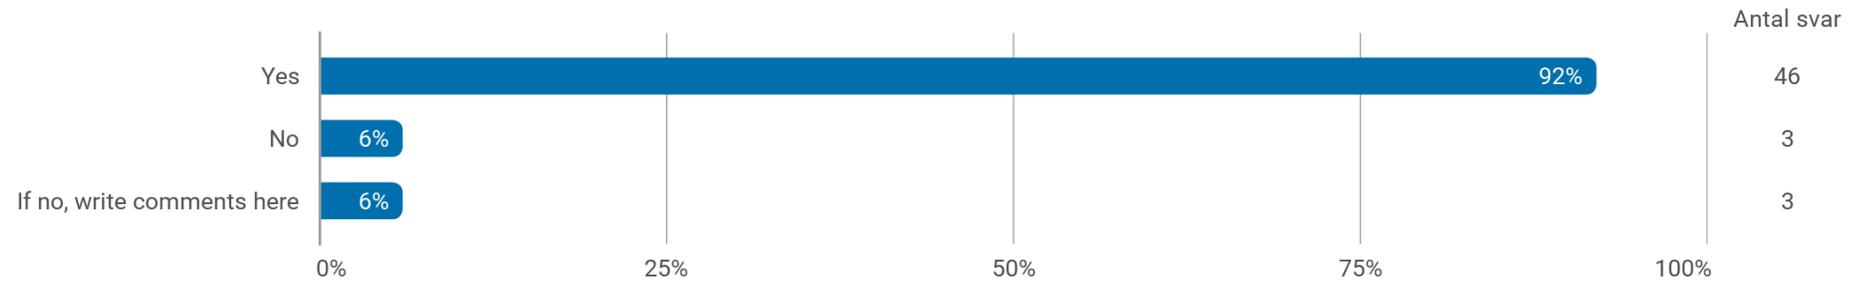

# Do you use our homepage [www.facs.au.dk](http://www.facs.au.dk) ?

I refer students to the site

## iLab: Do you find the booking system easy to use?

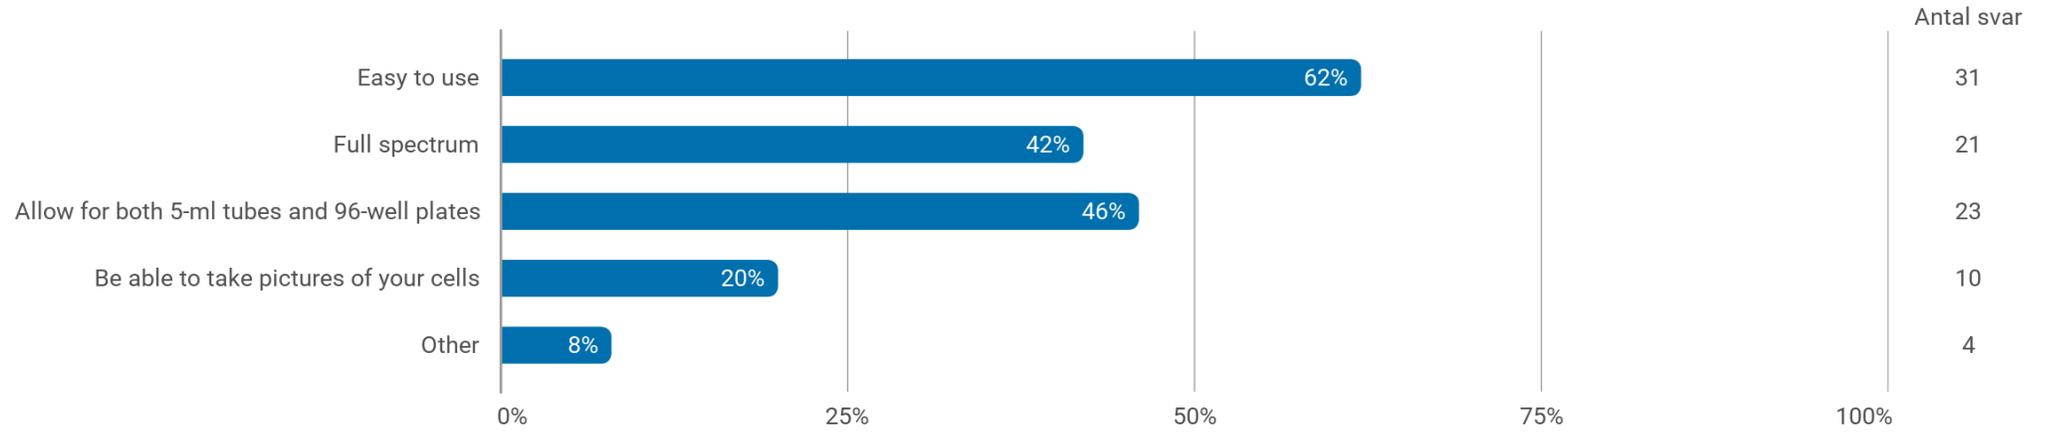

**iLab: Do you find the booking system easy to use? - If no, write comments here**

The mobile app could use some adjustments to be easier to use on phone.

I use it too infrequently to be familiar with the process.

For normal booking yes, but for booking assistance (for example when booking a sorting with help from FACS core). Then I think it is a bit confusing.

## When funded: A new flow cytometer in the FACS Core should be:

**When funded: A new flow cytometer in the FACS Core should be: - Other**

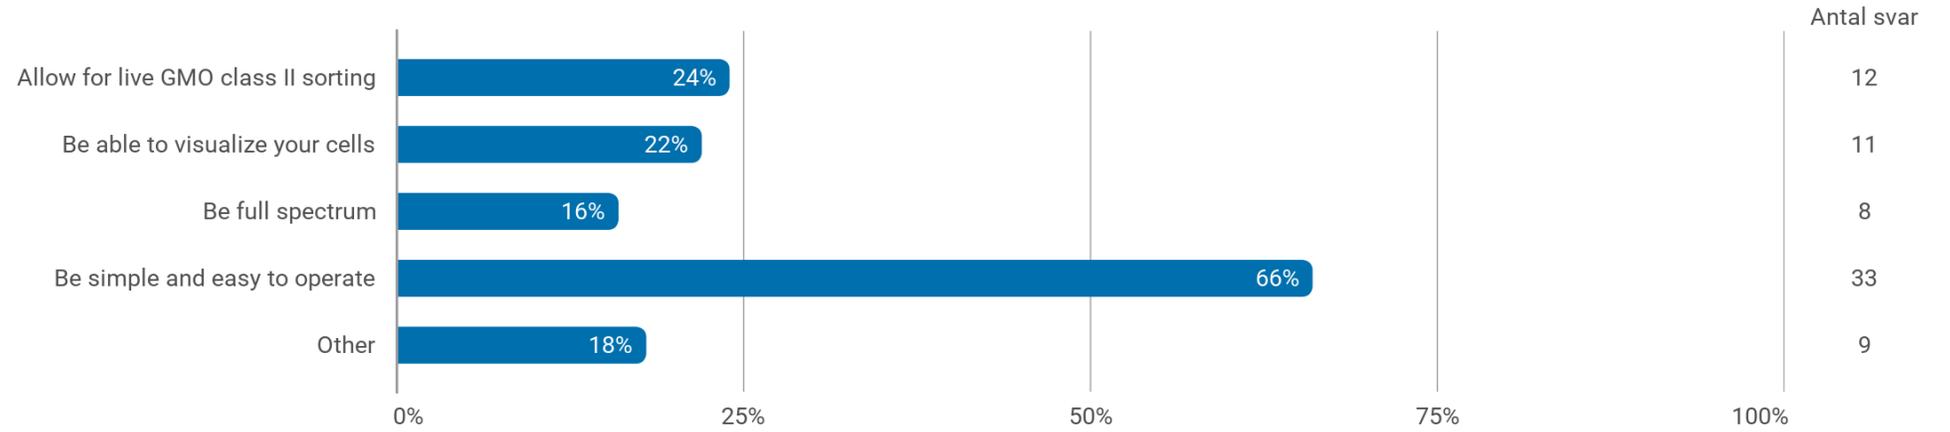

Not informed enough for an opinion here sorry.

NA

Ideally, the Core facility should have both "workhorse", easy-to-use systems and state-of-the-art specialist instruments available.

Binding kinetics would be super cool e.g., HeliXCyto

## When funded: A new cell sorter in the FACS Core should be:

**When funded: A new cell sorter in the FACS Core should be: - Other**

not imported to us

idk

No opinion

No need for cell sorter

NA

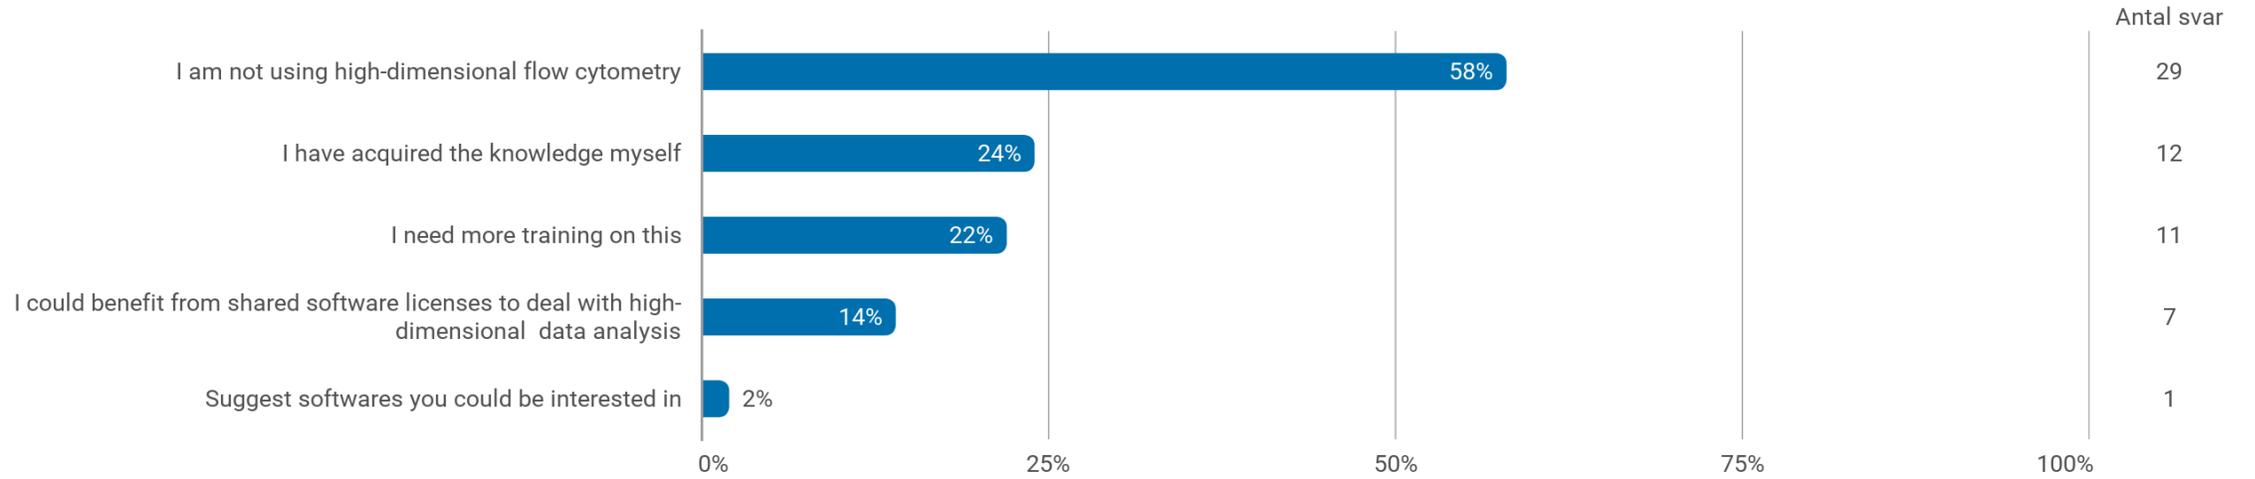

I have no opinion

I don't have experience with cell sorting

## My need for cell sorting is:

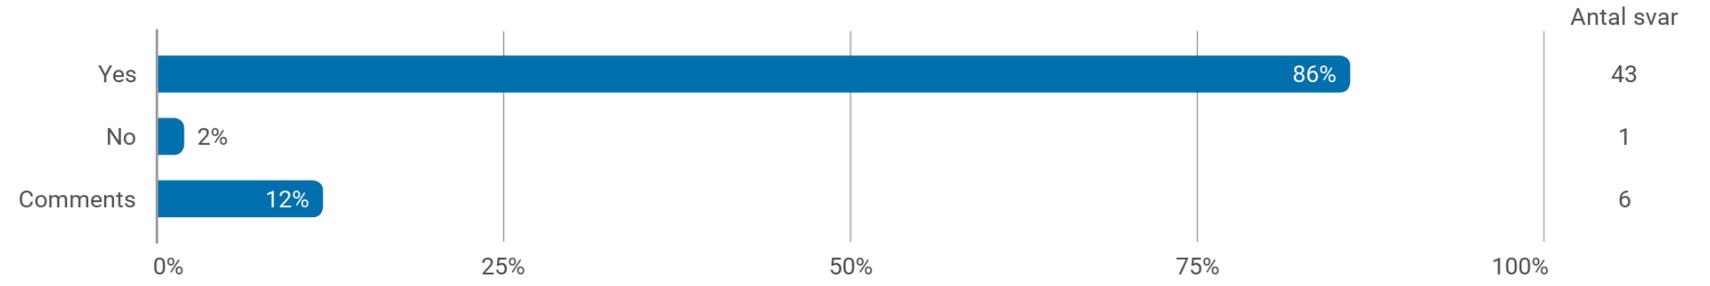

## Regarding high-dimensional data analysis:

**Regarding high-dimensional data analysis: - Suggest softwares you could be interested in**

R-package/-code sharing. I am sure some people here have made code for analyzing and quantifying their FCS data in R, and it could be nice to have a place to share it with others.

# Are you happy with the laboratories after the move to the Bartholin Building?

## Are you happy with the laboratories after the move to the Bartholin Building? - Comments

NA

I'm not using the laboratories in the Bartholin Building

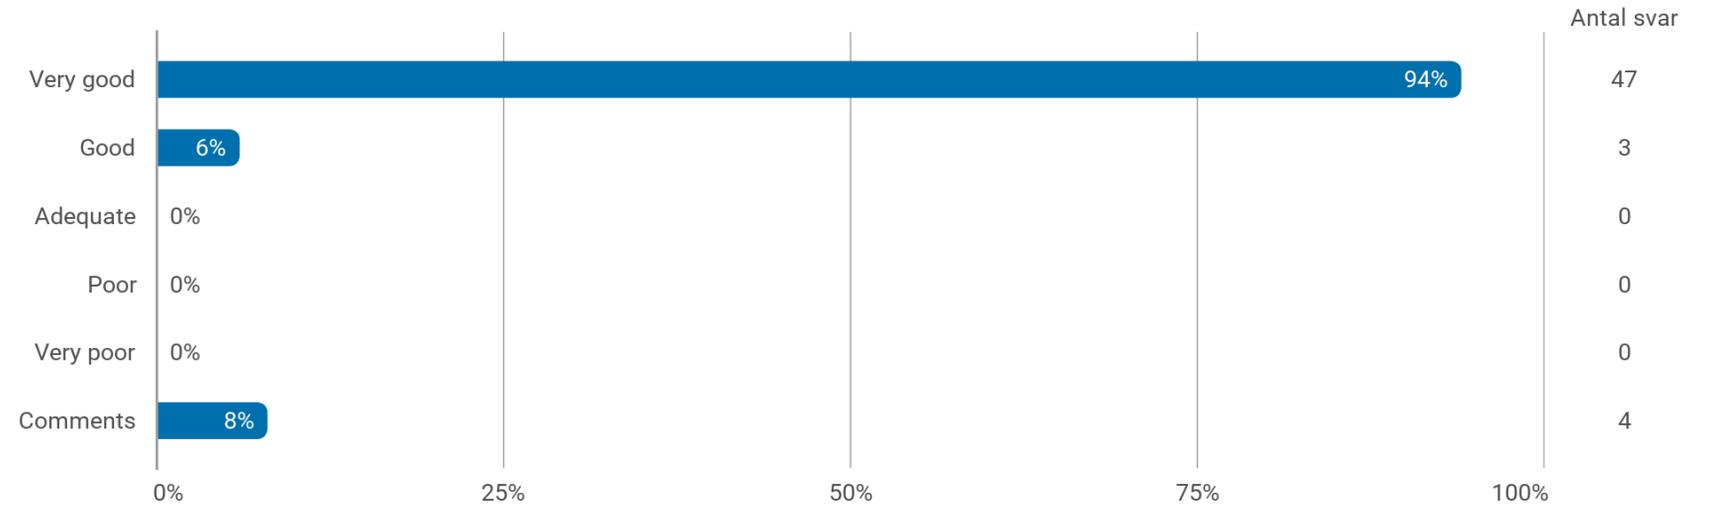

I haven't been there yet.

I have never been, since I'm at Steno I can't comment.

I am happy, but looking forward to get a cantine

Based in Skejby, so I'm not using the facilities at Bartholin.

# Overall, how would you rate the FACS Core Facility?

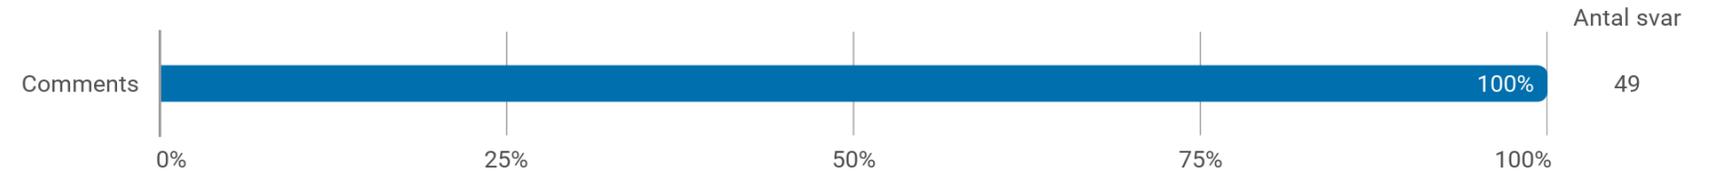

**Overall, how would you rate the FACS Core Facility? - Comments**

Nice people

I have used other SRLs the staff here are extremely knowledgable and they truly improve my research

Excellent!

If you have any suggestions for improvements, please write them below. Thank you.

no

iLab is not easy to use when you are in the GMO2, would be nice if we could come up with a solution for this.

You are doing an amazing job!

Would it be possible to have access to a table centrifuge in the labs?

Very nice atmosphere in the FACS Core Facility, I always feel welcome to ask questions

Very efficient and wise staff

Tusind tak for jeres hjælp, i gør det super godt!

The faculty should give you more recognition - You should be rewarded with a price for the best core facility at AU :)

Thank you!

Tak for jer!

Small workshops - improvement of certain skills

Perhaps negotiate the prices for usage

None

No suggestions :-)

No suggestions - I think you are doing great :-)!

More staff :-) You're far too busy!

More chocolate and cake :)

I'm not using FCM/FACS myself, however my student/colleagues are, and they seem very happy with FACS core

I think you are all very skilled, kind, and patient. Love coming at facs core

I think that the FACS core works very well. For example it is easy to get help when needed. I also like the SONY meetings you have hosted. Especially the last one with Laura was very informative! I also learned a lot from the FlowJo courses with Serena, so it is nice when you facilitate workshops/seminars/meetings like this.

I have no further comments.

I er knivskarpe!

Good work

FACS core is an amazing facility. However, they are very busy, and could benefit from hiring 1-2 people extra as the demand is high :-)

Everything is fine.

Every interaction I've ever had with every member of the FACS core staff has been a delight.

Automatic calendar synchronization from iLab booking to the Outlook calendar

All staff are so friendly, helpfull and non-judging

All is good!

All good
